

BUCEA INTERNATIONAL SUMMER PROGRAM (ISS)

AIMS & OBJECTIVES

The two-week BUCEA International Summer Program will be launched on July 9, 2017. Upholding the guiding principle of promoting the internationalization of education & improving the university's international competitiveness and featuring the internationalization of such core elements as curriculum, faculty, students and campus culture, the English-taught program with world-class faculty and international students aims at creating a multi-cultural, multi-disciplinary and multi-level class and campus life with Chinese and international students studying together and communicating with each other. We will strive to achieve:

- (A) Global BUCEA**
While transferring such featured disciplines of BUCEA as architecture and civil engineering into series courses and making them go global, students at BUCEA are blessed with an opportunity to approach world-class lectures and students from different countries and cultures without going abroad. Both the international and domestic students at BUCEA can benefit the most at the minimum cost.
- (B) Well-prepared courses**
Four fields will be chosen from BUCEA's featured majors such as architecture, civil engineering, water supply and drainage, computer science, each containing around four courses with three of general knowledge or basics related to the field and from one to three of Chinese culture or language courses.
- (C) World-class faculty**
Apart from the "Yangtze River" Scholar award winner and distinguished returnee doctors from BUCEA, we will invite college teachers from top-notch overseas universities such as Auburn University and University of Minnesota in the United States, University of the West of Scotland in the United Kingdom and Taiwan Da-Yeh University.
- (D) Various cultural activities**
Chinese students and international students can together work on architecture design projects at relevant courses, practice at computer courses and visit ancient architectures with Chinese characteristics and also the modern architectures designed by the alumni of BUCEA in Beijing, savoring the unique Chinese architectures integrating elements of both the Chinese and the western as well as the ancient and the modern. It is hoped that such activities can boost a wide range of direct communications between Chinese and international students, bringing an ever-changing Beijing and China closer to international students.
- (E) Innovative teaching methods**
Introducing world-class university teaching methods to the program lectures, ISS provides favorable conditions for interdisciplinary course selection, encouraging students' class engagement and improving students' capabilities of creative thinking and independent research.
- (F) Expanded international influence**
BUCEA will make great efforts to build ISS into an important platform for international exchange and cooperation and bring our research achievements featuring architecture to the world.

IMPLEMENTING RULES

Date & Venue

Date
July 9 – July 22, 2017 (July 9 for registration)

Venue
No.1 Zhanlanguan Rd., Xicheng District, Beijing

Fields and Courses

Architecture,
Civil Engineering.

Course Selection

International students can sign up through persons in charge at their universities before May 1. Every international student can earn one credit or one and half credits for a course that lasts from 16 to 24 contact hours.

Evaluation & Certificate

International students completing all the selected courses at ISS will obtain certifications jointly issued by BUCEA and China Association of Construction Education, and mutual recognition will be based on the universities' international cooperation agreement.

Visa Application

Upon receiving the registration information of an international student, we will send invitation letters to the person in charge at their universities, by virtue of which the invited international student can apply for a visa.

Cultural Activities

We will organize sightseeing around Beijing's famous scenic spots and architectures such as the Great Wall, the Forbidden City, the Summer Palace and the Capital Museum.

Fees & Payment Mode

Fee: 5,500 yuan / person (accommodation and food included)

Housing: on-campus Foreign Affairs Apartment (2-3 persons/room)

Dining: university canteen

Payment Mode

* Credit card payment or cash on registration day
* Payment in advance (Please process the payment at following banking account before July 9, 2017)
BENE BANKER'S A/C NO.: 001043718
BENEFICIARY BANKER'S NAME: Industrial and Commercial Bank of China, Beijing Municipal Branch, Beijing, PRC
SWIFT CODE: ICBKCNBJBJM
BANK ADDRESS: NO.15 Sanlihe Road, Haidian District, Beijing, China

 INTERNATIONAL EXCHANGE & COOPERATION

The university has established cooperative relationship with 60 world-renowned universities from the United States, Italy, the United Kingdom, South Korea, Japan, Australia, New Zealand, France, Canada, Russia, Portugal, Greece, Germany, Poland, Malaysia, Taiwan, Hong Kong, etc.

BUCEA has taken great initiative in organizing and hosting a number of international conferences and forums, including The 3rd International Conference on Hot Issues About Civil Engineering & Architecture, 2014 Cross-Strait Seminar on Information Science and Technology, greatly boosting the university's international reputation.

Dual-degree joint training programs (dual bachelor's degree programs & dual bachelor's master's degree programs) have been launched through credit transfer and mutual recognition; such outbound exchange activities as joint work camps, short-term study tours and cultural activities have been expanded. 648 international students from 25 countries for the past five years have studied in BUCEA.
