

永續文化校園調查：線上研討會

Online Workshop : Doing a Campus Survey on Sustainability Culture.

An effective sustainability strategy in the university requires everyone to be engaged and for sustainability to be embedded in the culture of the university. Environmental and organisational psychologist Tim Cotter has many years of experience consulting on how to achieve this to many organisations, including universities in Australia. Cotter has developed a model which defines the key enablers of a culture of sustainability and a standard survey to measure it.

Tim Cotter is invited to discuss questions like: how do we define a culture of sustainability, how do we measure it, and how do we create it? He will present his model and introduce his benchmarking survey for measuring the extent to which sustainability is prominent within the university culture. This model survey is a great tool for improving ranking positions in any Green Impact ranking system like Green Metric, STARS or THE Impact.

Tim Cotter
Awake Consultancy

Date: March 15 2023
Time: 15:30 - 17:00
Schedule: 15:30 - 16:30 Presentation Tim Cotter
16:30 - 17:00 Q&A

日期：2023年3月15日（三）
時間：15.30 - 17.00
時間表：
15:30 - 16:30 : Tim Cotter的演講
16:30 - 17:00 : 問答時間

在大學裡，高效率的永續發展策略需要全體人員的參與，並將永續發展融入大學文化。環境和組織心理學家Tim Cotter擁有多年諮詢服務經驗（包括澳大利亞大學在內的許多組織）Cotter 開發了一個模組，定義了永續發展文化的關鍵推動因素和衡量它的標準調查。我們將邀請Tim Cotter一同討論以下議題：我們如何定義永續發展文化？我們如何衡量它以及我們如何創造它？

Cotter將呈現他的模組並介紹他的基準調查，以衡量永續發展在大學文化中的顯著程度。這個調查模組是一個很好的工具，可以提高任何綠色影響排名系統（例如綠色指標、STARS 或THE Impact）中的排名位置。
