

【SATU - 2023 Joint Research Scheme (JRS) Call for PI Proposals】

Warmest greetings from the SATU Presidents' Forum International Secretariat!

The 2023 SATU Joint Research Scheme (JRS) is now calling for research proposals from principal investigators (PI) from member universities. We hope that you will join us in enhancing our regional collaborations and help us achieve a more fruitful fact-finding future.

JRS was launched by SATU Presidents' Forum in 2012 as a **matching platform for scholars from all SATU member universities to establish international research collaborations**. JRS has been receiving more and more attention over the years. The number of matched projects has grown to 392 in 2021 and even 434 in 2022. We believe the JRS has served an important role in promoting collaborations among our member universities.

If you have any research proposals and would like to look for like-minded collaborator(s) to work with, **all you need to do is to complete the “PI Proposal Submission form” at [2023 SATU JRS](#) during 8-22 March 2023**, and we will call for co-investigators for your project(s). The submission process is short and simple, and will take less than 10 minutes to complete.

Further details and the proposal submission form can be found in [the 2023 SATU JRS Website](#). **The proposal submission deadline is 22 March 2023.**

For enquiries, please contact Ms. Charlotte Li at satu@ncku.edu.tw

We look forward to your participation in this year's JRS.

Best regards,
SATU Presidents' Forum International Secretariat
