 LOCAL CULTURE
 SCIENCE & TECHNOLOGY

SHORT COURSE PROGRAM

2024

TERM OF REFERENCE
LOCUST

**2nd LOCAL CULTURE
 SCIENCE & TECHNOLOGY**

**Science and Technology
 in Improving Local Culture Innovation**

PROGRAM OVERVIEW

Universitas Islam Sultan Agung (UNISSULA) has collaborated with many universities across the globe in fostering internationalization and mutual benefits in education, research, public services, and other areas involving the lecturers as well as the students. One of the programs highlighted by UNISSULA is exchanging ideas and empowerment programs for UNISSULA students and partner universities' students.

The 2nd Local Culture Science and Technology (LOCUST) 2024 is intended to give opportunities for students to open their horizon about the use of technology in local culture, especially batik. Batik is recognized by UNESCO as one of the world's cultural heritages. This program also provides the opportunities for students to develop ideas on how batik will be developed. Not only batik, this program also discuss and conducts online workshops on ecoprint, another way to give motifs to fabric using leaves.

We invite your university to participate in this program by delegating students. This program is free for all participants. Participants will collaborate with students from different countries and various cultural backgrounds to open bigger opportunities in local culture industries.

OBJECTIVES

This program is expected to give the students the opportunity to:

- Gain knowledge related to Batik
- Enrich knowledge about the use of technology in batik industry
- Collaborate with students from different countries and various cultural backgrounds
